

## ROLL OUT OF ULTIMO R4 ROLL TEST STAND AT SCHENCK , NOIDA

Dear Customers and Colleagues,

We conducted the roll out of our new Product Ultimo-R4 at our Noida works. We also conducted a seminar on End of Line Testing which carried details, of the Ultimo-R4 followed by a Demonstration of the Ultimo-R4's performance.

This was the culmination of 3 years of research and development to find and produce a product tailored specifically for the cost concerned but quality conscious Indian Automotive industry.

The Ultimo-R4 thus became the outcome of indigenous share and discuss with clarity the advantages of the Ultimo-R4 in terms of productivity, development based on the vast experience and mentorship of DURR Assembly Products, Germany. Our valued customers from Tata, Honda, Maruti, Mahindra, Skoda etc., attended these proceedings where in we were able to flexibility, cycle times, and much lower acquisition costs.

For those who were unable to attend due to work commitments, we are already planning for the next work shop and seminar on End of Line Testing for our customers, the date for which would be announced soon. In the meanwhile, we would request our customers to send in the RFQ's to us for technical evaluations and solutions through the cost effective Ultimo-R4. We look forward to discuss the technical details with you.

Thank you all again for making the Ultimo-R4 launch and this knowledge sharing platform, a success !!

We are glad that all attendees gained from updating their knowledge about the latest technologies in the End of Line Testing and latest assembly products through the detailed seminar and presentations and personal interactions with our experts from Germany, Mr.Borkeloh, Mr.Kolb, Mr. Bellman and Mr.Krass. It was useful and productive to share our Global experience and skills with our customers and also to share our vision for a cost effective solution for Roll testing in the form of Ultimo-R4.

Hence, we thank our customers from across the Indian Auto Industry, for the feedback and inputs based on which this product (Ultimo-R4) was conceived, designed and implemented!
